

MatStor™ Stillage

Boost site efficiency with our galvanised steel mat stillages, capable of transporting and storing up to 30 mats.

Designed to minimise lifting and reduce damage, these heavy-duty stillages feature forklift compatibility, versatile lifting points, and rotating arms for easy handling. Their stackable design and storage tray keep your workspace organised.

Ground Mats

Features

- Slingable Design: Secure lifting with integrated points for chains or slings.
- High Capacity: Stores and transports up to 30 mats efficiently.
- Heavy-Duty Construction: Durable galvanised steel for long-lasting use.
- Rotating Arms: Simplifies loading and unloading for smoother operations.
- Forklift Compatible: Easily handled with forklifts or pallet trucks.
- Stackable: Space-saving design for efficient storage when not in use.

Protection from the ground up.
