GroundBlox™

GroundBlox™ have been developed from the ground up as a superior alternative to traditional timber blocks. Manufactured from high quality UV stabilized materials, GroundBlox™ will perform to expectations for the long term.

GroundBlox™ are safe due to their interlocking design, up to 30% lighter than other products and are load rated with laboratory and independent testing.

Workshop

Features

- Load rated and independently tested
- Multiple configurations to suit different loads
- UV Stabilised
- Lightweight, up to 30% lighter than timber and other alternative products
- Tough, safe interlocking system for added safety
- Tack up to 150cm, excluding top configurations

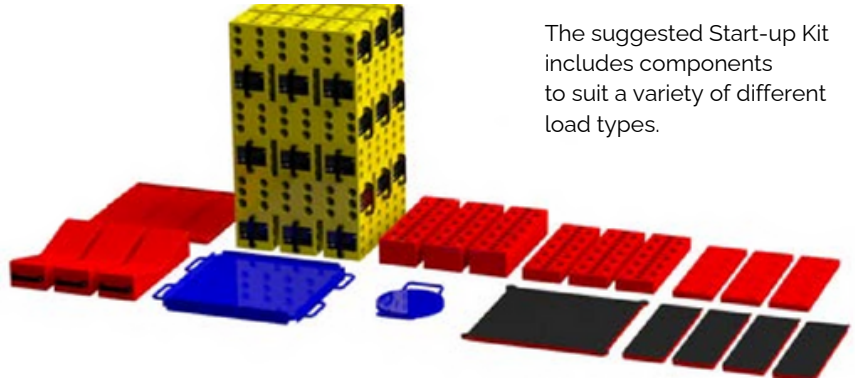

This item is made from recyclable products.

Protection from the ground up.

The suggested Start-up Kit includes components to suit a variety of different load types.

Code	Module	Dimensions	Weight	Qty in Kit
53301	Ground Block	510mm x 150mm x 150mm	8kg	18
53302	Standard Top Pad	546mm x 546mm x 22mm	6.5kg	1
53303	Standard Base Pad	535mm x 535mm x 22mm	4.5kg	1
53304	Standard Top Plate	644mm x 520mm x 50mm	42kg	1
53308	Standard Top or Bottom Pad	514mm x 153mm x 21mm	2kgs	4
53311	Jack Plate	393mm x 250mm x 25mm	8kgs	1
53312	Single V Block	510mm x 150mm x 100mm	6.6kgs	3
53313	GroundBlox Packer 25mm	25mm x 510mm x 150mm	2.3kgs	1
53314	GroundBlox Packer 50mm	50mm x 510mm x 150mm	3.5kgs	1
53315	GroundBlox Packer 100mm	100mm x 510mm x 150mm	6.5kgs	1
Not included in Standard Kit but available for purchase				
53310	Single Top Plate	40mm x 160mm x 50mm	15.8kgs	0
53309	Single Top Pad - Female	514mm x 153mm x 21mm	1.9kgs	0
