GroundMatz™ Lite HD

GroundMatz™ Lite HD mats protect surfaces from damage caused by heavy equipment, perfect for construction sites and events.

Crafted from durable high-density polyethylene (HDPE), they prevent soil erosion and minimise environmental impact by distributing weight. With a non-slip surface and lightweight design, GroundMatz™ Lite HD ensures safety and easy handling.

Ground Mats

Features

- **Sturdy Construction:** Built from durable materials for long-lasting use.
- **Non-Slip:** Traction pattern for enhanced grip.
- **Heavy Load Capacity:** Supports 40* tonnes per axle.
- **Lightweight:** Easy to handle and install.
- **Easy Maintenance:** Simple to clean and maintain.
- **Matstor™ Compatible:** Organises and transports GroundMatz™ mats and ensures quick access.
- **Connectable:** Linkable for larger work areas.

This item is made from 100 % recycled material

*Ratings given are indicative only & are dependant on soil bearing capacity, refer user manual for more information regarding CBR

Protection from the ground up.

L x W: 2400 x 1200 mm

Thickness: 10mm
(12mm Overall)

Weight: 31 kgs

At Ground Nurse®, we promise to deliver advanced ground care protection systems that enhance safety and efficiency in construction and mining. With our motto, 'Protection from the Ground Up,' we are committed to providing reliable, innovative solutions that not only meet the highest standards of quality but also support sustainable practices, ensuring long-term environmental and operational benefits for your projects.
