

Capability Statement

Ground Nurse

Supporting the men and women driving defence, mining, and infrastructure projects.

Ground Nurse is dedicated to empowering the hardworking individuals behind Australia's most vital projects. From defence to mining and civil infrastructure, our durable ground protection solutions make their challenging work safer, smoother, and more efficient.

Our range of high-capacity ground mats, trench covers, site track-out systems, and access solutions is built to perform in the toughest conditions. These products enhance stability, minimise environmental impact, and ensure uninterrupted operations on demanding terrains.

We prioritise quality, safety, and reliability, helping field teams stay productive and focused – whether building critical infrastructure or supporting national growth.

Our Mission

To give the men and women driving Australia's progress the confidence to work safely and efficiently. Through adaptable, high-quality solutions, we partner with teams to protect their people, projects, and the environment.

With Ground Nurse as a trusted partner, those on the ground can focus on what matters – staying safe, achieving results, and building a stronger Australia.

Why Customers Choose Ground Nurse

- **Trusted by Top-Tier Clients:** Proven reliability, supporting major names like the NSW Government, Rio Tinto, and John Holland.
- **Globally Sourced Quality:** Durable, high-performing products designed for Australia's toughest projects.
- **Rapid Delivery:** Fast, efficient supply to keep your projects on schedule.
- **Tailored Solutions:** Customised approaches to meet your project's unique challenges.
- **Proactive Support:** Consultation and expertise every step of the way to ensure success.
- **Risk Mitigation:** Solutions designed to enhance safety, reduce downtime, and protect site integrity.
- **Operational Excellence:** Helping teams stay on track, on budget, and in compliance with industry standards.
- **Adaptable Service:** From urban infrastructure to remote energy installations, we adapt to your needs.

Industries We Support

Making work safer and easier for people on the ground.

Infrastructure Construction

- We provide stabilised access roads, ground mats, and covers to keep equipment steady, prevent bogging, and ensure smooth, efficient site operations.

Defence

- Our rapidly deployable solutions create stable, secure ground in challenging terrains, enabling safe operations and effective resource mobilisation during critical missions.

Mining

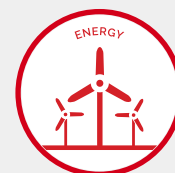

- Durable ground mats and access systems protect personnel and equipment in rugged conditions, enhancing safety and minimising downtime on high-demand sites.

Energy & Telecommunications

- From wind and solar farms to power infrastructure projects, we deliver stable access across diverse terrains, supporting renewable and traditional energy teams in achieving their goals.

How We Help You

- Prevent equipment bogging and minimise site hazards.
- Provide secure, stable surfaces for heavy equipment and personnel.
- Enable quick deployment for fast-paced or emergency operations.
- Protect ecosystems while maintaining site accessibility.

“Ground Nurse ensures the people driving Australia’s essential industries can work with confidence.”
